Décor End Panels, Decor End Panels with 3" Reveal, Decor End Back Panels.....	140-142

The following is terminology designed to help in the ordering process.

- The Collection identifier is EN and remains constant in SKU terminology.
- Cabinet bases are available in 24", 27", 30" depths. The size includes the cabinet box and 4.5" adjustable stainless steel legs.
- Fully integrated back panels are standard on Endura products.
- Optional Décor End and Back panels are available to match door profiles for standalone or island installation. Décor End and Back panels complement the door profile and are factory installed. To order, choose SKUs with DL (Décor Left), DR (Décor Right), or B (Decor Both Ends) in the SKU nomenclature. Décor End Back panels are an accessory purchased separately (pages 140-141) and installed in the field.
- Stainless steel handles and pulls are recommended but not included. For more details see page 137.

! WARNING: TO PREVENT DAMAGE FROM EXTREME HEAT, IT IS ESSENTIAL TO ALWAYS USE AN INSULATED LINER WITH ALL GRILL INSERTS AND SIDE BURNERS. CONSULT WITH AN EXPERT FOR SPECIFIC RECOMMENDATIONS AND PROPER APPLICATION. FAILURE TO FOLLOW THIS ADVISORY WILL RESULT IN VOIDING YOUR WARRANTY AND POSSIBLE DETERIORATION OF THE CABINET.

- Base grill cabinets (BG) are designed with precut openings to accommodate required ventilation. If the grill manufacturer requires additional vents, they may be cut in the field.
- Grill bases are available in widths from 15" - 63" to accommodate side burners and grills. The size includes the cabinet box and 4.5" adjustable stainless steel legs.
- We recommended specifying cabinets 6" wider than the appliance.
- All grill base cabinets are equipped with a removable faceplate and four quick-release clips. Clips make removing and replacing the faceplate easy for in-field modification - no screws or fasteners are needed.
- Fully integrated back panels are standard on all cabinets.
- Optional Décor End and Back panels are available to match door profiles for standalone or island installation. Décor End and Back panels complement the door profile and are factory installed. To order, choose SKUs with- DL (Décor Left), DR (Décor Right), or B (Decor Both Ends) in the SKU nomenclature. Décor End Back panels are an accessory purchased separately (pages 140-141) and installed in the field.
- Stainless steel handles and pulls are recommended but not included. For more details see page 137.
- Snap-on toe-kicks are available and sold separately.

PRODUCT DESCRIPTION

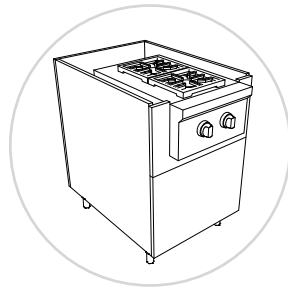

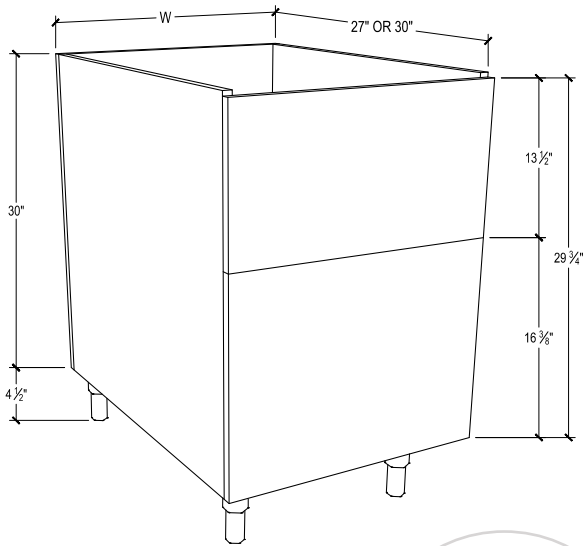

Grill base for grill or side burner, 1 door.

WARNING: All grills and side burners must be installed using an insulated liner to prevent damaging cabinets.

PRODUCT DESCRIPTION

Egg/Kamado grill base, 1 door.

WARNING: To prevent damage from extreme heat, it is crucial to use an additional 1-1/4 layer of non-combustible material between the bottom of the grill and the grill support shelf. In addition, use the same material on the side walls surrounding the grill.

Endura bar-back cabinetry is designed with a raised 6" high backsplash. This raised cabinet back allows the cantilevering of countertop material to create a bar height counter. A bar-back cabinet can help create a definition between the kitchen and the rest of the outdoor living area.

Endura bar-backs are seamlessly built into the cabinet base wall. This unique build provides cabinet strength and durability with a flawless finish.

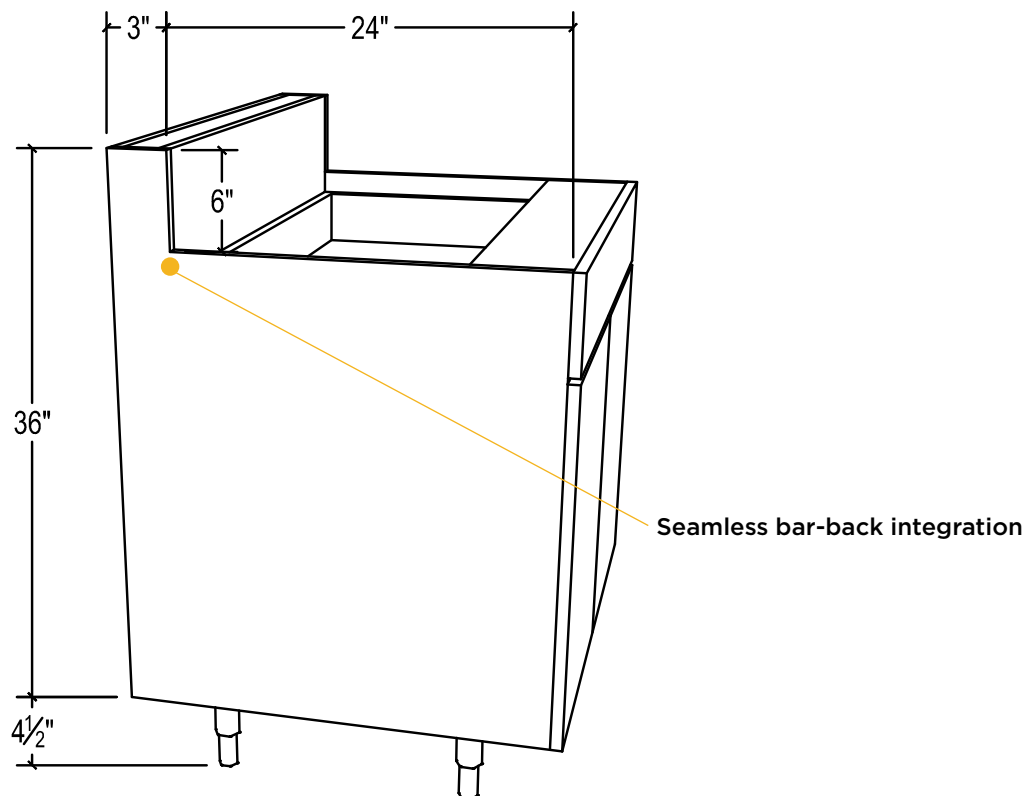

Optional Décor End and Back panels are available to match door profiles for standalone or island installation. Décor End and Back panels compliment the door profile and are factory installed. To order, choose SKUs with DL (Décor Left), DR (Décor Right), or B (Decor Both Ends) in the SKU nomenclature. Décor End Back panels are an accessory purchased separately (pages 140-141) and installed in the field.

The following terminology is designed to help in the ordering process.

- The Collection identifier is EN and remains constant in the SKU.
- Standard Wall cabinet depth 12" and 24".
- A fully integrated back panels are standard on all Endura cabinetry.
- Optional Décor End and Back panels are available to match door profiles for standalone or island installation. Décor End and Back panels complement the door profile and are factory installed. To order, choose SKUs with DL (Décor Left), DR (Décor Right), or B (Decor Both Ends) in the SKU nomenclature. Décor End Back panels are an accessory purchased separately (pages 140-141) and installed in the field.
- Stainless steel handles and pulls are recommended but not included. For more details see page 137.

- Available in heights 84", 90", and 96". The size includes the cabinet box and 4.5" stainless steel adjustable legs.
- 24" Depth cabinet boxes only, 24.75 includes doors.
- 4 Full-depth adjustable shelves.
- Fully integrated back panels are standard on all Endura cabinets.
- Optional Décor End and Back panels are available to match door profiles for standalone or island installation. Décor End and Back panels complement the door profile and are factory installed. To order, choose SKUs with DL (Décor Left), DR (Décor Right), or B (Decor Both Ends) in the SKU nomenclature. Décor End Back panels are an accessory purchased separately (pages 140-141) and installed in the field.
- Snap-on toe-kicks are available and sold separately. Toe kick may be ordered and cut in the field.
- Stainless steel handles and pulls are recommended but not included. For more details see page 137.
